## WORK & LEADERSHIP EXPERIENCE

---

### THEXRA SDN BHD

Klang, Selangor, Malaysia

*Associate Solutions Engineer*

May 2026 – August 2026

- Engineered immersive XR and AI-driven applications for industrial safety training, leveraging game mechanics to solve complex compliance challenges.
- Conducted R&D for strategic business proposals and digitised complex workflows to reduce new hire training time.
- Designed a comprehensive XR development curriculum for the CelcomDigi Metaversity Internship Programme, mentoring a 5-person team through a structured, end-to-end project lifecycle.

*XR Coordinator*

Nov 2025 – May 2026

- Developed AR/VR applications and custom 3D assets, driving the end-to-end deployment of enterprise XR solutions.
- Handled hardware configuration, spatial sensor setup, and on-site technical troubleshooting to ensure seamless live demonstrations, exhibitions, and client workshops.

### Jacvid Technology Supply & Service

Klang, Selangor, Malaysia

*Online Manager*

March 2023 – June 2023

- Administered backend server operations for e-commerce storefronts, ensuring smooth functionality across jacmore.com, Shopee, and Lazada
- Managed backend e-commerce server operations and developed front-end UI/UX enhancements utilising HTML, CSS, JavaScript, and jQuery.

### ArrayHubs

Klang, Selangor, Malaysia

*Software Developer Intern*

August 2022 – February 2023

- Developed responsive web applications and custom WordPress CMS solutions using the CodeIgniter MVC framework, HTML, CSS, and JavaScript/jQuery.
- Managed database architectures and optimized SQL queries via PHPMyAdmin to significantly improve application performance and data retrieval speeds.
